Revisions to reflect updates to federal law and re-branding of the Inmate Debit program

**STATEMENT OF CASE**

Securus Technologies, LLC. (Securus) proposes to revise its tariff to reflect revisions to federal law, including lowering calling rates to comply with federally imposed rate ceilings, and the re-branding of its Inmate Debit program to "Securus Debit". Also included are revised billing forms to reflect the changes proposed.

**RECOMMENDATION**

The Commission should approve:

1. Tariff Sheet Nos. 3, 5, 7, 8, 10, 15, 15.1, 17 – 21, filed September 9, 2021, by Securus, with TA4-758, attached as CKL-1, with an effective date of October 26, 2021, as requested by the utility; and
2. Tariff Sheet Nos. 2, 4, 6 – 8.1, 10, 15 – 22, filed September 9, 2021, by Securus, with TA25-461, attached as CKL-2, with an effective date of October 26, 2021, as requested by the utility.

**BACKGROUND**

Securus holds Certificate Nos. 461 and 758, authorizing it to provide intrastate interexchange service and Local Inmate Calling Private Pay Telephone service, respectively, to 4,732 customers in Alaska.<sup>1</sup>

In 2019, the Federal Communications Commission (FCC) issued an order expanding the federal Telephone Relay Service (TRS) contribution for Internet Protocol Captioned Telephone Service to include local and intrastate call revenues as of July 1, 2020.<sup>2</sup> In 2020, the FCC asserted

<sup>1</sup> See tariff advice letter for TA4-758 and tariff advice letter for TA25-461, both filed by Securus on September 9, 2021, at page 2. Please note, there are 394 affected Alaska Connect customers, 2,193 affected Alaska Prepaid intrastate interexchange service customers, and 2,145 affected Alaska Prepaid local customers.

<sup>2</sup> See Misuse of Internet Protocol (IP) Captioned Telephone Service; Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities, CG Dockets Nos. 13-24 and 03-123, Report and Order, FCC 19-118, 34 FCC 11265 (released November 25, 2019).

jurisdiction over most Inmate Calling Service (ICS) ancillary service charges.<sup>3</sup> In 2021, the FCC issued new ICS call rate caps applicable to most ICS, including intrastate and local rates, and requiring the application of an end-to-end analysis to determine call jurisdiction, as well as new disclosure requirements for customer bills.<sup>4</sup> Except for reducing the rate cap applicable to intrastate and local ICS calls from prisons, Staff believes these revisions neither affect the current authorized ancillary service charges under either Securus tariff nor change the underlying services Securus is providing under its tariffs.

With TA4-758 and TA25-461, Securus proposes updating its tariff provisions regarding taxes for consistency with federal law, specifically the federal TRS contribution requirements, as well as rebranding Securus' "Inmate Debit" account product as "Securus Debit."

Securus requests the filings be effective after the end of the statutory notice period on October 26, 2021, the effective date for implementing the FCC requirements.

## **NOTICE**

Public notice was issued on September 13, 2021, with comments due by October 13, 2021. No comments were received.

## **ANALYSIS**

### **Definition Revisions**

#### **(TA4-758 Tariff Sheet Nos. 5, 7, and 8, TA25-461 Tariff Sheet Nos. 6, 7, 8, and 8.1)**

With TA4-758 and TA25-461, Securus proposes adding definitions for Average Daily Population (ADP) and Site Commission, as well as revising the definition for Mandatory Tax or Mandatory Fee. Finally, with TA25-461, Securus proposes relocating two definitions, "Company or Carrier" and "Consumer", from Tariff Sheet No. 7 to Tariff Sheet No. 8.

Staff has reviewed the proposed new and revised definitions and notes that they are identical to definitions provided in federal rules.<sup>5</sup> Staff also verified the relocated definitions filed with TA25-461 contained no revisions other than their relocation. Staff therefore recommends the Commission approve Tariff Sheet Nos. 5, 7, and 8 filed with TA4-758 and Tariff Sheet Nos. 6, 7, 8, and 8.1 filed with TA25-461.

### **Revisions to Rules and Charges Related to Changes in Federal Law**

#### **(TA4-758 Tariff Sheet Nos. 10, 15, 15.1, 17, 18, and 19, TA25-461 Tariff Sheet Nos. 10, 15, 16, 17, 18, and 19)**

The bulk of the revisions proposed with TA4-758 and TA25-461 relate to changes made by the FCC in its November 25, 2019, Report and Order on Misuse of Internet Protocol (IP) Captioned Telephone Service; Telecommunications Relay Services (TRS) and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities to expand the TRS contribution to include local and intrastate call revenues as of July 1, 2020. Further, in 2021, the FCC issued new call

<sup>4</sup> See Rates for Interstate Inmate Calling Services, WC Docket No. 12-375, Third Report and Order, Order on Reconsideration, and Fifth Further Notice of Proposed Rulemaking, FCC 21-60 (released May 24, 2021)

rate caps applicable to local and intrastate ICS calls from prisons, requiring an end-to-end analysis to determine call jurisdiction, and new disclosure requirements for customer bills.<sup>6</sup>

On Tariff Sheet No. 10, filed with both TA4-758 and TA25-461, Securus proposes replacing its existing Taxes provision of Section 2 – Rules and Regulations with a new provision clarifying Securus’ general practice of applying taxes and fees in addition to tariffed rates and charges. Securus states it is making this change “in connection with the FCC’s expansion of the Telecommunications Relay Service Fund contribution base to include intrastate call revenues and Securus applying the Federal Cost Recovery Charge for purposes of passing along these charges to consumers (without markup) as an Authorized Fee in conformance with the FCC’s ICS rules.”<sup>7</sup>

New language was also added to Tariff Sheet Nos. 15 and 15.1, filed with TA4-758, and Tariff Sheet Nos. 15 and 16, filed with TA25-461 to add a provision to Section 4 – Rates and Charges, clarifying the FCC’s jurisdiction over ICS calls of indeterminate jurisdiction and Securus’ compliance with the rate cap requirements. Additionally, a table was added to Tariff Sheet No. 15, filed with both TA4-758 and TA25-461 listing the FCC’s maximum ICS rates.<sup>8</sup> While the local call rates for Securus remain below the maximum per minute rates mandated by the FCC for prisons and remain unchanged in TA4-758, for TA25-461, application of the federal rate ceilings to intrastate ICS results in a rate decrease for all calling plans as the rates are now capped by the FCC at \$0.14 per minute.<sup>9</sup>

Deletions were made on Tariff Sheet Nos. 17, 18, and 19, filed with TA4-758 and TA25-461 to remove the phrase “Applicable state taxes and fees are included in the charges for the calls made,” as that language is no longer accurate. This issue is now addressed in the revised Section 2 on Tariff Sheet No. 10 in both tariffs.<sup>10</sup>

Finally, on Tariff Sheet Nos. 17, 18, and 19, filed with both TA4-758 and TA25-461, which contain specific calling plan program rules and descriptions, Securus proposes to delete the recitation of specific rates for Prepaid Calling Card Rates, AdvanceConnect Rates, and Debit Access Rates (TA4-758) and Prepaid Calling Card Rates, Intrastate Long Distance Rates, and Debit Access Rates (TA25-461). The tariff language on each sheet simply notes that each of these rates are now the same as the Collect Rates. As noted above, the specific rates for all calling types are now detailed on Tariff Sheet No. 15 in both tariffs.

Staff has reviewed the revisions proposed by Securus as discussed in this section and believes they conform with the changes mandated by the FCC, and further that the resulting IXC rate reductions with redound to the benefit of Securus’ customers. Therefore, Staff recommends the Commission approve Tariff Sheet Nos. 10, 15, 15.1, 17, and 18, filed with TA4-758 and Tariff Sheet Nos. 10, 15, 16, 17, and 18, filed with TA25-461.

### Housekeeping Changes

(TA4-758 Tariff Sheet Nos. 3, 19, 20, and 21, TA25-461 Tariff Sheet Nos. 2, 19, 20, 21, and 22)

With TA4-758 and TA25-461, Securus proposes minor revisions to its index, check sheet, debit program, and billing forms.

Securus proposes revising its index, filed with TA25-461 as Tariff Sheet No. 2, to include the new Tariff Sheet No. 8.1 as well as rename Tariff Sheet No. 22 to reflect its now blank status.

The check sheet, found on Tariff Sheet No. 3, filed with TA4-758, and Tariff Sheet No. 2, filed with TA25-461, provides a complete list of tariff sheets and their corresponding revisions numbers. Staff has verified that the list is accurate and the revision numbers are correct.<sup>11</sup>

Revisions made to the debit program on Tariff Sheet No. 19, filed with both TA4-758 and TA25-461, are limited, with the exception of the changes discussed in the previous section, to rebranding “Inmate Debit” to “Securus Debit”.<sup>12</sup>

Revisions made to the billing forms on Tariff Sheet Nos. 20 and 21, filed with both TA4-758 and TA25-461, and Tariff Sheet No. 22, filed with TA25-461, reflect changes mandated by the FCC to improve the forms’ transparency.<sup>13</sup>

Staff has reviewed the housekeeping changes proposed and believes they reflect the FCC’s orders, are reasonable, and make no changes that would negatively impact Securus’ customers. Therefore, Staff recommends the Commission approve Tariff Sheet Nos. 3, 19, 20, and 21, filed with TA4-758, and Tariff Sheet Nos. 2, 19, 20, 21, and 22, filed with TA25-461.

### CONCLUSION

With TA4-758 and TA25-461, Securus proposes updating its tariff provisions regarding taxes for consistency with federal law, lowering calling rates where applicable to comply with federal rate ICS rate maximums, as well as rebranding Securus’ “Inmate Debit” account product as “Securus Debit.” Staff has reviewed Securus’ revisions and believes that the proposed changes to its tariff are reasonable and accurately reflect the FCC’s revised regulations. Therefore, Staff recommends the Commission approve:

1. Tariff Sheet Nos. 3, 5, 7, 8, 10, 15, 15.1, 17 – 21, filed September 9, 2021, by Securus, with TA4-758, attached as CKL-1, with an effective date of October 26, 2021, as requested by the utility; and
2. Tariff Sheet Nos. 2, 4, 6 – 8.1, 10, 15 – 22, filed September 9, 2021, by Securus, with TA25-461, attached as CKL-2, with an effective date of October 26, 2021, as requested by the utility.

Pursuant to the Federal Communications Commission's Third Report and Order, Order on Reconsideration, and Fifth Further Notice of Proposed Rulemaking, FCC 21-60, released May 24, 2021 and effective October 26, 2021 (the "FCC 2021 Order"), the jurisdictional nature of an intrastate call depends exclusively on determining the physical location of the endpoints of the call being within the State of Alaska. To the extent that location data is not available, a call will be treated as jurisdictionally indeterminate and, therefore, subject to FCC jurisdiction. As a result, all call rates in this tariff are subject to the FCC's jurisdiction and rules regarding ICS. Securus' practices in connection with charging ICS call rates in connection with Inmate Calling Services complies with Federal Communications Commission Rule 47 CFR § 64.6030. Also pursuant to the FCC 2021 Order, any lower Alaska state ICS rate caps will also apply to any jurisdictionally indeterminate ICS call. If Securus segregates intrastate ICS from interstate ICS based on the physical location of the endpoints of an ICS call, then any other applicable Alaska state ICS rate caps will apply. The maximum ICS rates permitted by the FCC 2021 Order are set forth in the following table:

Type / Size of Facility	Maximum Rate Cap
Prison	\$0.14 per minute*
Jails with ADP of 1,000 or more	\$0.16 per minute*
Jails with ADP less than 1,000	\$0.21 per minute

\* May include a Site Commission up to \$0.02 per minute pursuant to Securus' contract with the applicable Correctional Facility.

Ancillary Service Charges

Pursuant to the Federal Communication Commission's Report and Order on Remand and Fourth Further Notice of Proposed Rulemaking, FCC 20-111, released August 7, 2020 and effective November 23, 2020, ancillary service charges are considered jurisdictionally mixed (i.e., they cannot be segregated between interstate and intrastate calls) and, therefore, subject to FCC jurisdiction. For purposes of ancillary service charges, the jurisdictional nature of an intrastate call depends exclusively on determining the physical location of the endpoints of the call being within the State of Alaska. As a result, all ancillary service charges are subject to the FCC's jurisdiction and rules regarding ICS. Securus' practices in connection with charging ancillary service charges in connection with Inmate Calling Services complies with Federal Communication Commission Rule 47 CFR § 64.6020. If Securus segregates intrastate ICS from interstate ICS based on the physical location of the endpoints of an ICS call, then the ancillary service charges set forth in this tariff will apply to intrastate ICS calls in Alaska.

Federal Cost Recovery Charge

This is a charge used to recover the cost of fees and surcharges that Securus is permitted to pass through, without any markup, to Consumers, including those funding the Telecommunications Relay Service program.

Where offered by the Confinement Facility, Inmates may purchase a Prepaid Calling Card for calls made by the Inmate User or Authorized User. Prepaid Calling Cards provide an alternative method to make calls and are designed for those Inmates who prefer to prepay for their calls. Calls are made by dialing a special access dialing sequence that connects directly to the Company's network at the Confinement Facility. A valid Authorization Code must be entered to access the account.

The Company's system automatically informs the Inmate User or Authorized User of the Prepaid Balance remaining on the Prepaid Calling Card and provides prompts to place the call by entering the destination telephone number with area code. Prepaid Calling Card service follows the same call validation processes and restrictions as Collect Calls from the Confinement Facility as described in the Inmate Service Restrictions section of this tariff. This includes notification and identification to the called party of the origination of the call from a Confinement Facility. Prepaid Calling Card calls also follow the same call processing restrictions regarding the blocking of calls from Inmates as a result of invalid validation of an Inmate or Inmate User or the intended End User. This includes access to interexchange carriers 800, 950, and 10xxx dialing codes, directory assistance, live operators, and other numbers as specified by the Confinement Facility and/or End User. Network usage is deducted from the Prepaid Balance on a real time basis as the call progresses. Applicable state taxes and fees are included in the rates and charges for the calls made. On Prepaid Calling Card calls, when the Prepaid Balance is one minute prior to depletion, the Inmate User or Authorized User will be interrupted with such an announcement.

Prepaid Calling Card service is available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate User may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. Prepaid Balances are not charged for incomplete calls.

The Confinement Facilities that offer the option of Prepaid Calling Cards may purchase Prepaid Calling Cards directly from the Company. Inmates then purchase the Cards from authorized personnel at the Confinement Facilities. The Company does not engage in direct monetary transactions with the Inmate. The Inmate may purchase a Prepaid Calling Card in denominations determined by the Confinement Facility. Prepaid Calling Cards are offered only to Inmates at Confinement Facilities and not to the general public. Prepaid Calling Cards are valid for one hundred eighty (180) days from the date of issuance. Unused Prepaid Balances may be used by the Inmate User or Authorized User following release from the Confinement Facility only through the Company's network by dialing a special toll-free access number which automatically connects the call to the Company's network. Unused Prepaid Balances are not refundable, nor may Prepaid Calling Cards be replenished upon the depletion of the Prepaid Balance. Inmates may purchase additional cards, as permitted by their Confinement Facility. In addition, where authorized by the Confinement Facility, the Company may permit Inmates to combine the unused Prepaid Balances on to a single Prepaid Calling Card.

INMATE TELECOMMUNICATIONS SERVICE  
 INTRASTATE

Pursuant to the Federal Communications Commission's Third Report and Order, Order on Reconsideration, and Fifth Further Notice of Proposed Rulemaking, FCC 21-60, released May 24, 2021 and effective October 26, 2021 (the "FCC 2021 Order"), the jurisdictional nature of an intrastate call depends exclusively on determining the physical location of the endpoints of the call being within the State of Alaska. To the extent that location data is not available, a call will be treated as jurisdictionally indeterminate and, therefore, subject to FCC jurisdiction. As a result, all call rates in this tariff are subject to the FCC's jurisdiction and rules regarding ICS. Securus' practices in connection with charging ICS call rates in connection with Inmate Calling Services complies with Federal Communications Commission Rule 47 CFR § 64.6030. Also pursuant to the FCC 2021 Order, any lower Alaska state ICS rate caps will also apply to any jurisdictionally indeterminate ICS call. If Securus segregates intrastate ICS from interstate ICS based on the physical location of the endpoints of an ICS call, then any other applicable Alaska state ICS rate caps will apply. The maximum ICS rates permitted by the FCC 2021 Order are set forth in the following table:

Type / Size of Facility	Maximum Rate Cap
Prison	\$0.14 per minute*
Jails with ADP of 1,000 or more	\$0.16 per minute*
Jails with ADP less than 1,000	\$0.21 per minute

Pursuant to the Federal Communication Commission's Report and Order on Remand and Fourth Further Notice of Proposed Rulemaking, FCC 20-111, released August 7, 2020 and effective November 23, 2020, ancillary service charges are considered jurisdictionally mixed (i.e., they cannot be segregated between interstate and intrastate calls) and, therefore, subject to FCC jurisdiction. For purposes of ancillary service charges, the jurisdictional nature of an intrastate call depends exclusively on determining the physical location of the endpoints of the call being within the State of Alaska. As a result, all ancillary service charges are subject to the FCC's jurisdiction and rules regarding ICS. Securus' practices in connection with charging ancillary service charges in connection with Inmate Calling Services complies with Federal Communication Commission Rule 47 CFR § 64.6020. Where offered by the Confinement Facility, Inmates may purchase a Prepaid Calling Card for calls made by the Inmate User or Authorized User. Prepaid Calling Cards provide an alternative method to make calls and are designed for those Inmates who prefer to prepay for their calls. Calls are made by dialing a special access dialing sequence that connects directly to the Company's network at the Confinement Facility. A valid Authorization Code must be entered to access the account.

The Company's system automatically informs the Inmate User or Authorized User of the Prepaid Balance remaining on the Prepaid Calling Card and provides prompts to place the call by entering the destination telephone number with area code. Prepaid Calling Card service follows the same call validation processes and restrictions as Collect Calls from the Confinement Facility as described in the Inmate Service Restrictions section of this tariff. This includes notification and identification to the called party of the origination of the call from a Confinement Facility. Prepaid Calling Card calls also follow the same call processing restrictions regarding the blocking of calls from Inmates as a result of invalid validation of an Inmate or Inmate User or the intended called party. This includes access to interexchange carriers 800, 950, and 10xxx dialing codes, directory assistance, live operators, and other numbers as specified by the Confinement Facility and/or called party. Network usage is deducted from the Prepaid Balance on a real time basis as the call progresses. Applicable state taxes and fees are included in the rates and charges for the calls made. On Prepaid Calling Card calls, when the Prepaid Balance is one minute prior to depletion, the Inmate User or Authorized User will be interrupted with such an announcement.

Prepaid Calling Card service is available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate User may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. Prepaid balances are not charged for incomplete calls.

The Confinement Facilities that offer the option of Prepaid Calling Cards may purchase Prepaid Calling Cards directly from the Company. Inmates then purchase the Cards from authorized personnel at the Confinement Facilities. The Company does not engage in direct monetary transactions with the Inmate. The Inmate may purchase a Prepaid Calling Card in denominations determined by the Confinement Facility. Prepaid Calling Cards are offered only to Inmates at Confinement Facilities and not to the general public. Prepaid Calling Cards are valid for one hundred eighty (180) days from the date of issuance. Unused Prepaid Balances may be used by the Inmate User or Authorized User following release from the Confinement Facility only through the Company's network by dialing a special toll free access number which automatically connects the call to the Company's network. Unused Prepaid Balances are not refundable, nor may Prepaid Calling Cards be replenished upon the depletion of the Prepaid Balance. Inmates may purchase additional cards, as permitted by their Confinement Facility. In addition, where authorized by the Confinement Facility, the Company may permit Inmates to combine the unused Prepaid Balances on to a single Prepaid Calling Card.

During a Securus Debit call, when the prepaid account balance is one minute prior to depletion, the Inmate will be interrupted with such an announcement.

Securus Debit services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. Prepaid balances are not charged for incomplete calls.

Refunds of unused Securus Debit account balances are issued by the entity controlling the actual cash deposits, which is either the Company, the commissary, the Confinement Facility or its agent, depending on the specific arrangements, unless otherwise directed by state law. Depending on the entity issuing the refund, refund fees and/or minimum refund amounts may apply. The prepaid balance expires ninety (90) days from the date of the last call placed on the Securus Debit account unless alternative arrangements are expressly requested by the Confinement Facility. No refunds of unused balances will be issued after the expiration date.
